Sheryl Abercrombie
Board Chair

Who May Operate or Manipulate Radiation-Producing Equipment in Kentucky

Date: September 10, 2014

POSITION STATEMENT

KRS 311B.090 (1) states that “No person shall engage or attempt to engage in the operation of radiation-producing equipment or the administration of ionizing radiation for the purpose of medical imaging or radiation therapy in Kentucky unless licensed in accordance with the provision of this chapter.” Therefore, it is the position of the Board of Medical Imaging and Radiation Therapy that anyone who operates or manipulates radiation-producing equipment when it is in a condition where an exposure can be made must be licensed under the provisions of KRS 311B or a licensed practitioner of the healing arts.

Board Authority:

The Board of Medical Imaging and Radiation Therapy is authorized by KRS 311B.010 to 311B.190 to regulate an operator of a source of radiation other than a licensed practitioner of the healing arts.
