		received multiple questions concerning the scope of practice as it relates to PICC line placement. The committee will draft a position statement for the board's review. d. The question was raised whether a new administrative regulation should be drafted concerning the reporting of criminal convictions by licensees. The regulations revision committee does not believe this is necessary. The current process is sufficient. When a licensee renews, they are asked if they have been convicted since the last renewal. If they answer "yes", the renewal process ends and the individual must call the office to proceed. At that time, the individual submits documentation related to the criminal convictions. The renewal can proceed and the information related to the criminal convictions are then presented to the complaint/violations committee for their review.
